

## Exercise

### Regular questions vs. research questions

[What is this?](#)

Regular question: Where was my shirt manufactured?

How does the location of clothing manufacturing influence environmental impacts and labor conditions within the fashion industry?

Regular question: Where is the nearest community garden?

How do community gardens impact food access and community bonds in urban areas?

Regular question: How many bicycles were sold in New York last year?

What factors influenced bicycle sales trends in New York last year?
